EDUCATION

- **Indian Institute of Information Technology (IIIT), Vadodara** 2024 – Present
Bachelor of Technology - Computer Science and Engineering *Current CPI: 7.83/10*
- **S.G.T.B. Academy** (CBSE - Class XII) 2023
Percentage: 89.6%
- **S.G.T.B. Academy** (CBSE - Class X) 2021
Percentage: 88.6%

TECHNICAL SKILLS

- **Languages:** C++, C, Python, JavaScript (ES6+), SQL, HTML5, CSS3
- **Frameworks & Backend:** Node.js, Next.js, Express.js, React.js, React Native
- **Databases & Tools:** MongoDB, PostgreSQL (Supabase, Neon), JWT, OAuth 2.0
- **Core CS:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems

PROJECTS

- **Air Canvas** — *Real-time Gesture Drawing App* 🐙 GitHub
Tech Stack: Python, OpenCV, MediaPipe, NumPy, OOPs
 - Developed an interactive Computer Vision application enabling users to draw virtually using real-time hand gestures.
 - Implemented **MediaPipe** for real-time hand landmark detection (21 landmarks) and **OpenCV** for live video frame processing.
 - Engineered gesture recognition logic mapping a single index finger to drawing mode and two fingers (Index + Middle) to color selection/UI interaction.
 - Integrated multi-color selection, smooth stroke rendering, and eraser functionality dynamically mapped to a digital canvas.
- **Car Rental App** — *Online Vehicle Booking Platform* 🐙 GitHub
Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT
 - Developed a full-stack car rental platform enabling users to browse, book, and manage vehicles in real-time.
 - Implemented secure authentication and authorization using **JWT** to ensure protected user sessions and booking data.
 - Designed dynamic search and filtering features for vehicles based on availability, price, and location.
 - Optimized booking workflow with real-time availability checks, reducing double-booking conflicts.
- **LearnFlex** — *Entrance Exam Preparation Platform* 🐙 GitHub
Tech Stack: React.js, Node.js, Express.js, MongoDB
 - Engineered an online learning platform for entrance exam preparation with structured courses and practice tests.
 - Developed quiz and assessment modules to track user performance and provide instant feedback.
 - Implemented personalized learning features, allowing users to focus on weak areas based on performance analytics.
 - Designed scalable backend APIs to handle multiple users and concurrent test submissions efficiently.

ACHIEVEMENTS

- Solved **1000+** DSA problems across competitive programming platforms.
- **LeetCode:** Max Rating **1618**
- **Codeforces:** Pupil (Max Rating **1213**)
- **CodeChef:** 2-Star Coder (Max Rating **1477**)

POSITIONS OF RESPONSIBILITY

- **IIITV Academics Committee** 2024 – Present
Lead & Core Member
 - **Sponsorship & Events (Kreiva × Alfaaz):** Led sponsorship outreach and corporate communication efforts; organized and managed a cultural event with 1000+ participants, including budget planning and coordination.
 - **Editorial & Design:** Served as a core member of the Editorial Club; spearheaded the design and publication of the official 2025 Institute Magazine.
